	<b>Section</b>	<b>Comment</b>	<b>Proposed Solution</b>
<b>Preprint AB 2 (incorporating AB 49, Feu- er/Huffman)</b>			
	10608.48(b)(1)	This section calls for measuring the volume of water delivered to customers with sufficient accuracy to comply with section 531.10(a), which requires reports of only aggregated farm-gate delivery data.	
	10608.52	Here and elsewhere (see, e.g., 10608.56) there are references to the California Bay-Delta Authority. If it is abolished as part of this package of bills, such references should be deleted.
